BULK PRICING SCHEDULE

Effective 10-01-08

ABOUT

All T-shirts (short and long sleeve) are 5.5-5.6 oz. 50% cotton/50% polyester brand-name products. Main production is on the HeavyWeight Blend Jerzee 29series, although some other equal-quality brands are sometimes substituted. The 5.6 oz. t-shirt is the heaviest weight/thickness that can be purchased in a cotton/poly blend.

Sweatshirts are 8-9.3 oz. Majority of production is on Jerzees, but some Hanes, Fruit of the Loom, Gildan, and Anvil brands are also used.

All shirts - unless otherwise stated - are in unisex sizes and use the "men's fit" size chart. They run very "true" to size and do not shrink.

NOTE: Youth sweatshirts run a full size too small. Order next size up.

SIZES

Pricing schedule below applies to all sizes from Youth through Adult XL. Extended size additions apply. See chart below. Most all garments are stocked through 2XL or 3XL (depending on availability.)

2XL add \$2.00
3XL add \$3.00
4XL add \$4.00*
5XL add \$5.00*

*white and ash gray short-sleeve t-shirts only.

White/Black

IMPRINT

Please consider that the process used with this type of printing is translucent, and imprints do "take on" a "tone" of the original garment. Pure color printing is always its best on white, or ash gray. Light yellow (yellow haze), tan, and classic pink are very "favorable" print colors - where the light blue, bamboo green, island yellow, safety green, and lavender colors require the design to be "like" and darker color friendly for the best finished product. If you choose one of these colors - its best to tell your designer BEFORE artwork begins.

Short-Sleeve T-Shirts

Priced on white shirts, add \$2 for colored shirts.

Sleeve impressions add \$.50 per item.
